

NON-COMMERCIAL CLEANER RECOMMENDATIONS *(updated 03/28/09)*

IMPORTANT: Using a spray bottle, apply properly diluted cleaner by spraying/misting onto the surface of the urinal and wiping away with a rag or sponge. Never apply cleaner directly into the cartridge.

The commercially available cleaners listed in the Falcon web site (www.falconwaterfree.com/literature) provide the best results for waterfree urinals but if they are not available to you, the following options can be used.

Vinegar and Hydrogen Peroxide – Mix equal parts (1:1) of white vinegar (5%) and hydrogen peroxide (3% solution). NOTE: if using this formula to clean stainless steel, be certain to thoroughly wipe the surface dry when finished.

OR

Citric Acid – Mix 1 part citric acid to 20 parts water.
